Hardware Kit Cartons

Helton is pleased to announce updated graphics to our Hardware Kit cartons.

Helton hardware is designed for installers. Installers prefer hardware that is safe, high quality, and efficient to install.

The new graphics are designed to highlight those attributes. Also, the new cartons incorporate the safety bottom bracket instructions on the inside flap, keeping instructions readily at hand, saving the cost of printing separately and reducing waste.

Helton will transition to the new carton design within the next several weeks as existing inventories are depleted.

Our goal is to create value for our dealers by developing a more recognizable Helton brand, thereby driving installers to our customers.
